There's a solution to our region's skilled manpower shortage—thousands of solutions, in fact, and it is found with the Mid-South Carpenters Regional Council.

We are ready to staff your next project with plenty of skilled, productive, safety-conscious professional carpenters. Our contractors enjoy a deep supply of experienced crews who understand that their job is to get the work done quickly, correctly, and safely.

Skilled manpower shortage? We have thousands of solutions!

Attack the number one strategic challenge facing our area with a smart business decision: Tap into the trained manpower solution that is the Mid-South Carpenters Regional Council. Problem solved.

Safety and productivity is not an 'either-or' proposition for us. You get both, every day.

With offices, training centers, contractors, and 6,000+ professional carpenters throughout seven mid-southern states, we are a reliable, versatile manpower resource expertly equipped to meet the needs of the end-user.

We use our heads as much as our hands. We possess the knowledge and competency to meet any project schedule, budget, or circumstance with a mix of in-demand skills, professionalism, and teamwork.

We take our role seriously: We provide skilled, credentialed, safe, productive, professional carpenters to the regional construction industry.

We are ready to answer the manpower shortage for:

- Carpenters
- Cabinetmakers
- Interior Systems
- Piledrivers
- Lathers
- Framers
- Floorlayers
- Roofers
- Drywallers
- Forest Product Workers

The ROI of Our Partnership

Why partner with a Mid-South contractor or employ Mid-South Carpenters? Fair question. Here's a glance at what you get:

- Productive work from highly skilled professionals
- Customized training for individualized jobsite situations
- Workers with the proper certifications and qualifications
- Contractors who don't worry if their crew is showing up that day
- 24/7 support from professional, teamwork-oriented representatives
- A partnership based on cooperation and trust

It's a new day for the Mid-South Carpenters. We're smarter, safer, and faster.

We're better.

Michael Boner

Right to Work...doesn't mean your crews have the right to work poorly.
Mid-South Carpenters are trained, tested, and certified professionals.

Right to Work...doesn't mean your crews have the right to work dangerously.
Safety is stressed from the first day of apprenticeship and reinforced every day on the job site.

Right to Work...doesn't mean your crews have the right to work slowly.

We know time is money. We want the job to complete on time and on budget so that the customer is happy and our employer is profitable.

Right to Work...doesn't mean your crews have the obligation to work for travelers.
Local hands are ready for local projects. Keep local economies healthy by hiring skilled professionals who are also your neighbors, community members, and fellow citizens.

Today's Mid-South Carpenter is hard working, safe, skilled, and brings a professional attitude to every job site.

We Build. On Time. Every Time.
